Four of the following five are similar in a certain way, which creates a group.
Which of these is not related to this group?
P, T, H, X, R

(A) ○ P - (Alternative 2)
(B) ○ X - (Alternative 4)
(C) ○ T - (Optional 3)
(D) ○ **R - (Optional 1)**

Question No.79

1.00

In this question the relationship between the various elements of the statement is shown. The statement has two conclusions.

Statement. K = I <N ≤ D <E> R> A

Conclusion.
i) K <E
ii) E> A
Select from the following options.
(A) The only i conclusion is correct.
(B) Only ii conclusions are correct.
(C) either i either ii conclusion is correct.
(D) neither i nor ii conclusion is correct.
(E) i and ii both conclusions are correct.

(A) ○ B - (Alternative 2)
(B) ○ C - (Alternative 3)
(C) ○ **E - (Alternative 4)**
(D) ○ A - (Alternative 1)

Question No. 80

1.00

Select the next number in the following category
12, 15, 24, 51, 132,?

(A) ○ 345 - (Alternative 2)
(B) ○ 294 - (Optional 1)
(C) ○ **375 - (Alternative 4)**
(D) ○ 268 - (Optional 3)

Question No.81   1.00

Select the correct option from the given options that can make a full square. (3 of the 5 images below)

(A) ○ 1,4,5 - (Alternative 2)
(B) ○ 2,3,4 - (Optional 4)
(C) ○ **1,2,3 - (Optional 1)**
(D) ○ 3,4,5 - (Optional 3)

Question No.82   1.00

Read the information given carefully and answering the questions given are
Abi, Banu, Charu, Dev and Isha sitting on the side of five friends (not necessarily in the same order). All five lovers like five different types of sweets. Like Laddo, Barfi, Jamun, Katli and Peda.
1. The one who likes the pulse is sitting in the middle of the line.
2. Charu and Banu Padda sit on one side of the person who likes.
3. Banu likes laddoo and God does not sit at any end.
4. Barfi, who likes Barfi, is sitting in the third place on the left side of the berries.
5. People who like Zaman sit at the extreme end of the line and Abhi Jamun does not like.

According to the given statement, which of these statements is true?
(A) ○ Abi and Laddoo sits on the last end of the choice - (Alternative 3)
(B) ○ Dev is sitting between Abi and Charu - (Alternative 2)
(C) ○ **Charu likes Barfee - (Alternative 1)**
(D) ○ Isha likes Kathal - (Alternative 4)

Question no.83   1.00

In this question, a passage and a statement related to it have been given. Read carefully the verse and review the statement based on it.
Delhi, which is one of India's capital and one of the largest cities in the world, is undergoing severe crisis, due to its high level of urbanization, increasing population and high levels of pollution. Studies have proven that Are the biggest factors of pollution used for industrial and domestic use? And due to their use, people here emit large quantities of nitrogen oxides (NOx), ozone (O3), black carbon (BC) and microorganisms (PM).
According to the 2015 Global Burden of Disease report, there were 1.09 million deaths due to PM 2.5 in India. Air pollution was included as one of the 10 biggest threats to health. According to the World Health Organization, 37 cities of India are among 100 worst polluted cities in the world, where PM10 was found to be the highest ever. For the production of onoos, together with sunlight and heat, nitrogen oxides (NOx) and organic compounds (VOCs) are needed simultaneously. Therefore, in the summer months, ozone is produced in large quantities in the cities.
Statement: Ozone does not arise more than a boundary on the ground in the summer months in cities.
Select the most suitable from the following options

A-statement is absolutely true
B-statement is probably true
C-statement can not be reviewed
D-statement is completely false

(A) ○ C - (Alternative 3)

(B) ○ A - (Alternative 1)

(C) ○ B - (Alternative 2)

(D) ○ **D - (Alternative 4)**
